

# Window Treatment Color Trends 2017

*Consider this classic color pick of the year when choosing window treatments for your home.*

While there are many colors of the year that are decided upon by various color organizations, our favorite choice of 2017 is taupe. The color taupe is a harmonious combination of warm brown and cool grey creating a perfectly balanced neutral that coordinates nicely with many colors. Several Hunter Douglas window treatments contain colors within their line that are a perfect companion to taupe, including:

## Nantucket™ Shadings

Nantucket shadings offer several beautiful colors of taupe in the Front Street, Misty Harbor and Brant Point fabric lines. The soft fabric vanes that appear to float between sheer fabric panels offer an elegant and sophisticated option for decorating your windows with the color of the year.

## Luminette® Privacy Sheers

Our Luminette Privacy Sheers are your vertical choice, featuring graceful fabric vanes suspended between a sheer fabric. Choose neutral fabrics that impart a traditional style or go for a more contemporary look. No matter what color you choose, you will be delighted with the differing hues Luminette provides.

## The Alustra® Collection of Duette® Architella® honeycomb shades

The Alustra® Collection of Duette® Architella® honeycomb shades are one step above the rest when it comes to fabric offerings. This product line is constructed of rich, beautiful sheers and fabrics that are layered with unique weaves, textures and patterns to create the ultimate in design sophistication. While many of the colors are of neutral tones, the Macon fabric family has colors that are a perfect partner to taupe.

## Pleated shades

Pleated shades encompass a fun, whimsical family of colors and fabrics that use plenty of bold patterns for a creative option in window coverings. While there are many choices, we have a few favorites that pair perfectly with a taupe palette.

## The Alustra® Collection of Woven Textures®

If you desire fabrics that mimic the natural environment, the Alustra Collection of Woven Textures is a perfect choice. Choosing earth tones of browns and greys will make a home feel warm and welcome.
